

SUMMARY

A seasoned Frontend Developer Specialist with 5++ years of experience is a highly skilled professional who specializes in creating and maintaining the user interface (UI) and user experience (UX) of web applications.

I have a strong track record of leadership and technical expertise, making ability is a key contributor to development teams. With proficiency in front-end technologies such as HTML, CSS, JavaScript, and various modern frameworks (e.g., React, Angular, Vue.js), strong in a crucial role in designing responsive and visually appealing web interfaces.

My responsibilities include mentoring junior developers, collaborating with designers and backend developers, optimizing web performance, ensuring cross-browser compatibility, and staying up-to-date with the latest industry trends and best practices, experience is well-equipped to lead complex frontend projects and deliver high-quality user-centric solutions.

EXPERIENCE

- Sr. Frontend Developer

PT Wide Technologies Indonesia ↗

01/2024 - Present

Key Qualification & Responsibility :

Site Bank BNI (Customer Implementation) :

As a Software Engineer (Customer Implementation), participated in the internal development BNI DIRECT project of Bank BNI.

Developed and crafted project structure existing (BNI Direct Cash Lite Refactor UI).

Revamped the UI of BNI Direct Cash Lite using JSP technology to improve user experience and usability.

Redesigned concept project especially in frontend standardized a better framework structure for enhanced maintainability and scalability for existing application.
